

Additional information to Contract Notice [NO.]

This document contains all additional information to contract notice [NO.] regarding Cleaning Utensils (Small Arms and Handheld Weapons) Thus, the information in this document must be read carefully with the information given in the Contract Notice.

VI.3) ADDITIONAL INFORMATION

If the same legal entity is a part of or in any other way participates in several offers, e.g. submits his own offer and at the same time participates in a consortium which also submits an offer, the tenderers shall ensure that the same legal entity's participation does not provide for opportunity for mutual coordination of their offers. DALO reserves the right to request the tenderers to establish and reassure DALO that the same legal entity's participation does not threaten the transparency and distort competition between the tenderers.

Regarding Contract Notice section II.1.6): Since the procurement is divided into lots the tenderer is asked to state in the ESPD Part II, section A which lot or lots the offer concerns. Please note, that a tenderer can only submit one offer for each lot.

DALO reserves the right – but is not obliged – to use the remedies provided for in Section 159(5) of the the Public Procurement Act if applications or offers do not fulfil the formalities of the tender documents.
